

Bán needs a home

Bán is a 3-4 year old stray male cat and from what I can determine, has been living in the wild all of his life. I christened him Bán as he is completely white in colour. For the past year he has been coming to my back door on a regular basis for food and some affection. He has always welcomed a pat on the head and a gentle rub.

I captured him on 16/02/10 and had him neutered the next day. Unfortunately he tested positive for FIV. I would love to be in a position to keep Bán and give him the love and affection that he justly deserves but I have a domesticated female cat and cannot risk her getting infected with FIV - she gets jealous if she sees me giving him any attention and gives him 'the paw'!

Bán would be most suitably homed indoors or in a dwelling that has a cat-proof garden. He loves cat food pouches in gravy and jelly and enjoys cat nuts as well.

*If you can provide Bán with the home he deserves, please contact **087/6176798**.*
